

# JDCHR Round Tassie Tour - Easter 2009

## Day 5 Monday 6th April Gundagai to Melbourne

Peter had oil problems and Ian's car didn't want to start, probably because of smoke coming out when overtaking yesterday and needed a jump start. Finally got under way at around 10.00am.

Just before Wandle River on Goderich Road and going through rainforest it was down to 5degrees outside, the wind was blowing and it was cold. We stopped at Hellyers Gorge State Forest for morning tea in a little shelter that's used for information. Back on the road again going through more showers on and off and passing the Welcome to West Coast sign at 11.55am.

We had a short stop at Roseberry and Leyland and Helen were going to go through a mine while the rest of us drove on to Zeehan where we caught up with them again and had lunch in a little park.

After a stroll down the main street we then drove off at 2.00pm and arrived at Strahan about 2.45pm.

We found our cabins which were very nice and we relaxed for the afternoon before going to a restaurant for tea.

We were doing our laundry and Frog was trying to be helpful to Jan and told her to put her detergent in this machine only to find after tipping it in that the machine was the dryer. I would hate to be the next person who wanted to use the dryer; I guess the clothes would be clean.

It was a bit showery but Steve, Robynne, Graeme and myself opted to walk while the others drove as it was a fair way but we thought the walk would do us good. We were able to get under an awning when the rain came but then it was all good. I had a little torch so that guided us back to the cabins.

Dinner @ Strahan— hang on there Mary
